

REMARKS

The subject Preliminary Amendment seeks to add Figure 8 into this application. No new matter is added hereby, in view of the fact that Figure 8 is clearly discussed on pages 18 and also pages 23-25 and elsewhere in the specification. Full support exists for the subject matter of Figure 8 in that the steps involved with a termination of a communication session is illustrated in the figure, and is clearly discussed in great detail on pages 23-24 of the specification. It is well established in United States patent law that it is acceptable to add to the drawings that which is clearly disclosed in the specification. Substitute sheets for Figures 1-7 are also submitted herewith.

In view of the above, it is respectfully requested that the attached substitute drawings be entered.

In the event that there are any fees due with respect to the filing of this paper, please charge Counsel's Deposit Account No. 50-2222.

Respectfully submitted,
